

King Road (SR 1502)

from US 64 to NC 280

Local ID: **TRAN0041-H**Purpose: **Facility Deficiencies**Improvement: **Improve Existing****Identified Need**

King Road (SR 1502) has no paved shoulder and lane widths of 8 feet.

Recommendation

Improve alignment, lane widths, and shoulders to current design standards, including 5-foot paved shoulders.

TYPICAL SECTION No. 2C**2 LANE UNDIVIDED WITH PAVED SHOULDERS**

POSTED SPEED 25-35 MPH

Project OverviewLinkage to Other Plans

According to the 2013 Blue Ridge Bike Plan, this facility is part of an "Other Bicycle Corridor" serving the region. According to the 2025 Transylvania County Comprehensive Plan, this facility is part of the "Regional---Road Bicycle Routes" identified in that plan. It is classified as a minor collector on the Federal Functional Classification System.

Multi-Modal Considerations

Transylvania County Transit, under the name "Transylvania in Motion" operates a fixed route as well as demand response system within the county. The deviated-fixed route does not reach this facility; however, it is within the demand-response area. The Transylvania County Bicycle Plan (2019) recommends a bike lane or paved shoulder along this facility.

Goals & Objectives Survey

The citizens of Transylvania County responded to a public survey in early 2019 with a great deal of support for new greenways, sidewalks, and multi-use paths. When asked for their top three most important project types, these categories ranked first, third and fifth, out of a dozen choices. Rounding out the top five were maintenance and safety projects at second and fourth respectfully.

Natural & Human Environmental Context

Based on planning level environmental assessment using available GIS data, the proposed project is within the vicinity of the Gash Creek Headwaters Natural Heritage Area, and other water bodies. The project is in proximity of one place of worship. According to LHI Guild Analysis, this project intersects multiple guilds of the Mesic Hardwood, Mixed Forest, Sparsely Settled Mixed Habitats, Woodland, and Barrens variety. These are predominantly A-ranked resources with the balance

being B-ranked.
